

News Release - 12 September 2017

Following the devastating impact of Hurricane Irma on the British Virgin Islands, our local office at Woodbourne Hall, Tortola is temporarily closed. Our immediate priority has been for the safety of our local staff, all of whom have been accounted for and are safe and well.

We wish to thank those that have enquired about the wellbeing of our staff and sent us messages of support.

We are dedicated to continuing to provide our usual high level of service. Our business continuity plan has been invoked and our key electronic information systems are operational along with access to the BVI company registry system. We are able to offer a complete client service, albeit with some minor delays initially. Our international network of offices is supporting the needs of the BVI office.

In order to ensure that any communications and requests are handled promptly, please contact derek.rawlings@bvi.rawlinson-hunter.com or annie.peliwan@bvi.rawlinson-hunter.com directly for assistance.
